**DETAILED ACTION**

***Claim Objections***

Claims 1-20 are objected to because of the following informalities:

Perhaps applicant should insert –sequentially— before “applying” in line 12 of claim 1, in line 10 of claim 2, in line 11 of claim 8, in line 12 of claim 15 since it is not clear if the currents are applied at the same time (and how?) or alternately. Appropriate correction is required.

***Allowable Subject Matter***

Claims 1-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited in the PTO-892 and not mentioned above disclose related devices and methods.
